**STROODLES
ECO-TABLEWARE**

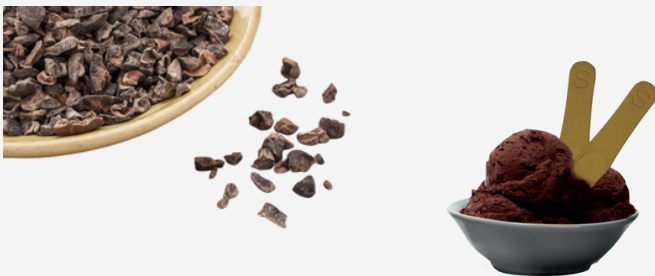

— Change Made Easy —

Stoodles, UK

STROODLES

Product: Pasta Straws

Stoodles is here to help fight plastic waste and straws are just our first channel of choice. We want to inspire the world and show how easy it is to do good. All our products are 100% biodegradable and good for the planet. And you can even munch on them after use, as they are all edible. Our pasta straws are made from wheat and water only

**Spoon
tainable**

Spoontainables, Germany

SPOONTAINABLE

Product: Edible Cutlery

Spoontainable's edible cutlery is one of Allego's sustainable alternatives for plastics. With their edible ice cream spoon, we can take the first step towards a more sustainable future. Spoontainable uses rescued cocoa shells to create their edible spoons. Spoontainable's cutlery can even be eaten after use because their recipe consists of 100% natural ingredients.

**Solu
BAG**

Solubag, USA

SOLUBAG

Product: Plastic Alternative

Solubag invented a new raw material made by a synthesis from calcium carbide and natural substances. Solubag's environmentally friendly bags can be completely dissolved in 5 minutes with hot water. Plastics meanwhile can take up to 500 years to decompose. The bags can be produced in the same machinery that currently manufactures flexible films, replacing the plastic material for Solubag's raw material.
