envirowise®

Envirowise by Allego Global is an e-commerce platform that showcases sustainable and circular products on a global scale. Our focus now spans across continents, with headquarters in Germany for the European market, UAE for the MENA region, and Canada for North America. Our commitment lies in revolutionizing product solutions and usage worldwide by offering earth-friendly, profitability-driven, and scalable alternatives. We are devoted to reshaping the landscape of product solutions and usage globally, providing sustainable choices as alternatives to traditional materials.

Our Mission:

- Empower consumers worldwide by providing sustainable choices, while leading the transition towards a circular economy in key regions such as Europe, MENA, and North America.
- Revolutionize packaging and usage practices globally by offering eco-friendly alternatives and showcasing circular products.

Our Products:

- Pasta Straws
- Doggie Waste Bags
- Shopping Bags
- Edible Cutlery
- Laundry Bags
- Detergent Sheets

Envirowise Products

Envirowise by Allego Global is an e-commerce platform that showcases consistent and circular products. Our goal is to transform plastic packaging and plastic use globally, with a focus on Canada as the base for North America, Germany for Europe, and the UAE for the Middle East and North Africa region, offering eco-friendly alternatives to plastic.

5 key pillars on product selection

Zero microplastics

Zero waste

Maximum reuse

Degrade with minimal composting

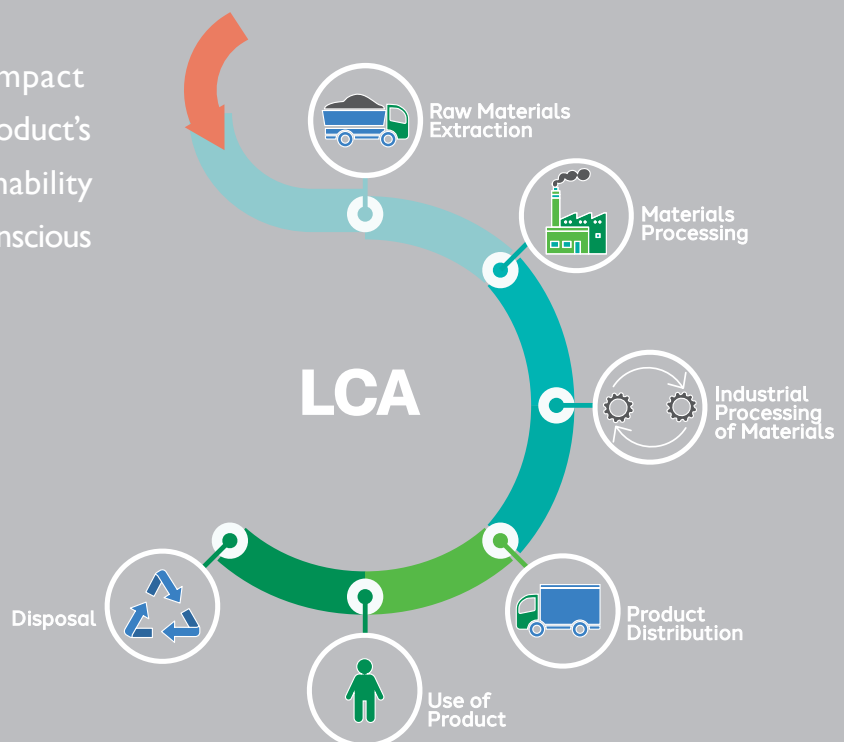

Commercialized Product

Our product selection criteria prioritize the identification of commercially viable solutions that not only embody sustainability and eco-friendliness, but also serve as efficient business alternatives. We offer practical, commercially feasible options for enterprises seeking to integrate environmentally conscious choices into their operations seamlessly.

Life cycle assessment

Envirowise conducts Life Cycle Impact Assessment (LCIA) to evaluate a product's ecological footprint, guiding sustainability efforts and ensuring informed, eco-conscious choices.
